

Maximum Tours

Rhythms International Educational Music Festivals

July, 2006

This is not just another Music Festival!! It's all about you! *(Recommended by Al "Corky" Fabrizio)*

Maximum Tours is celebrating its 20th year of personal quality and service. Service that you demand and expect. We know how to listen and we understand that you need **flexible dates, destinations and quality venues**. This is what helped us achieve a 100% client satisfaction last year. Our Private Festival Program gives you the flexibility of picking your own dates and destinations for your 2007 trip. It in no way affects the trip cost and gives you the opportunity of tailor-making your package with our coordinators according to what **YOU** want and need for your group. We specialize in having your groups also perform & march for the public at all of our destinations.

When you participate in a **Rhythms International Festival** you will be exposed to some of the finest adjudicators possible who have been carefully selected to meet your group's needs. All of the **Rhythms** judges agree with our educational concept and will work with your people to motivate them. Most of the time they will just reinforce exactly what you have been teaching them through the year but coming from the adjudicator it will further serve to strengthen your teachings. When you travel to a **Rhythms International** festival you will get:

* **The finest quality of judges**

- * **One hour warm-up time prior to event**
- * **One full hour on stage per division**
- * **Educational clinics & workshops on stage**
- * **Non-coemptive adjudications**
- * **Music of your choice**
- * **A extensive list of "on stage" instruments**
- * **Choral Risers**
- * **Judges tapes & comment sheets**
- * **Videotape of your groups performance & clinics**
- * **Sit down Banquet with Entertainment**
- * **Elegant Rhythms award plaque with the division inscribed on it (rating left to your discretion)**
- * **A flag of the destination**
- * **A letter from the host city thanking your group for the visit**

The concept was always there and you may have already experienced our personal touch in the past. Mike Leclerc has been creating and running Festivals for the past 20 years and was one of the driving forces for Paul Skeversky with Classic Festivals prior to 2002. **Maximum Tours** and **Rhythms International** gives you back the personal touch that you have come to expect. **Mr. Dallas Niermeyer**, our Director of Music, oversees every musical aspect of the Festival to assure the highest quality possible. The buck stops with us. I will personally help every Director achieve his or her goal.

*Mr. Al (Corky) Fabrizio has had the opportunity to judge for **Rhythms International** and was impressed with the quality of the judges, performance venues and the equipment available not to mention the care given to each group by their staff, the educational oriented approach by everyone, and the superb banquet and loving attitude extended to students and parents."*

I look forward to speaking with you and hosting your group. We are looking forward to hearing from you and enjoying the next 20 years with us.

Yours in music,

Scott Bochner
